

JASON DO

Data Analyst | Jasondo.analytics@gmail.com | (626)-372-0969 | [LinkedIn](#) | [GitHub](#) | El Monte, CA

CAREER SUMMARY

Data Analyst with freelance experience transforming raw data into actionable business insights through data wrangling, analysis, visualization, and reporting. Proficient in SQL, Python, Excel, Alteryx, and Tableau, with a strong foundation in data cleaning, dashboard development, and performance analysis. Skilled at communicating findings to stakeholders and solving complex business problems. Seeking a full-time Data Analyst role where I can apply my analytical and technical skills to support data-driven decision-making.

SKILLS SUMMARY

Languages: Python (Pandas, NumPy, Matplotlib, SQLite, Scikit-Learn), SQL

Tools: Tableau, Alteryx, Excel (VLOOKUP, Pivot Tables), Google Sheets, MySQL

Core Competencies: Data Cleaning & Wrangling (Python, Alteryx, Excel, Google Sheets), Data Visualization (Tableau, Excel, Google Sheets), KPI Reporting (Tableau), Business Intelligence, Dashboard Development (Tableau)

WORK EXPERIENCE

Independent Consultant

May 2024 – Current

Data Analyst

- Analyzed 2,000+ user sales and traffic data to optimize marketing strategy, leading to a 4% increase in customer conversion using PivotTables
- Automated data cleaning for up to 10,000+ inventory and transaction datasets, reducing dataset size by 24% and saving 6+ hours weekly using Pandas
- Built reusable data cleaning and analysis scripts that reduced repetitive work by 60% in Python
- Developed 25+ custom SQL queries for reporting and dashboard visualizations on Tableau
- Created 10+ Google Sheets dashboards on client KPI's, customer return analytics, and marketing analytics
- Explored website traffic data and increased checkout page traffic by 17% among first-time customers, and decreased bounce rate

Independent Consultant

May 2026 – Current

AI Trainer (Contract via Handshake AI Solutions)

- Reviewed 100+ AI responses to identify reasoning, hallucination, and visual interpretation, improving model evaluation reliability
- Contributed to prompt testing across 10+ subject areas, including business, economics, technology, education, and general knowledge
- Authored and tested 40+ visual reasoning prompts for multimodal vision-language models

PROJECTS

Nutritional Sales Breakdown | [GitHub](#)

Executed an end-to-end data analytics workflow using SQL, Python, and Tableau to clean, analyze, and visualize sales data

- Standardized and cleaned 4384 records of weekly sales data in MySQL to ensure data quality and integrity for analysis
- Conducted analysis in Python, uncovering that vitamins and minerals generated 3× higher aggregate sales than most other supplement categories
- Produced an interactive Tableau dashboard highlighting the top 7 KPIs, enabling stakeholders to assess performance and support data-driven decision-making quickly

Descriptive Insights into Customer Groups and Purchasing Behavior | [GitHub](#)

Assessed customer segmentation and purchasing patterns across demographic and behavioral variables

- Discovered that male customers reorder 1.9× more frequently than female customers, identifying a 2:1 male-to-female ratio indicating the main customer demographic
- Identified that Illinois ranked in both the top 5 for reorders and total sales, while other top-reorder states averaged 18–21 reorders per customer vs. 17.45 overall, indicating strong regional loyalty potential
- Quantified that subscribed customers placed 4% more reorders, suggesting higher long-term value and satisfaction

Nurse Staffing Analysis | [GitHub](#)

Assisting a third-party nurse staffing service in evaluating potential new markets using Tableau

- Found that the entire nurse contractor market only comprises about 3% of the total nursing hours worked
- Detected a discrepancy between CNA and LPN roles, discovering a possible 9x increase for the CNA contractors
- Uncovered the top 10 counties with the most health care facilities that are more likely to need more contractor nurses

EDUCATION

University of Redlands

Bachelor of Science, Business | GPA: 3.64

TripleTen

Data Analytics Professional Coding Bootcamp
